

Dear God

We are thankful for our friends who we can trust to speak to about our worries and who make us happy during sad times.

Thank you for our education and the people who teach so that we can grow into clever and sensible children.

Please help us to work hard so that we can achieve in our lessons and please guide our through our final year of primary school.

We ask that you help us to appreciate our school, homes and country because we are so fortunate.

We are grateful for all of the benefits of living in Britain such as the NHS, The Royal Family, the opportunity to vote and having the right to be an individual.

Help us to use our school values so that we can be good peace makers and make our school a joyful place.

We ask this in your name

Amen
